

Live Safely - A Protective Filter of the LongLife Class belongs in every house

SPEEDY LongLife

Backwash Protective Filter

JUKO LongLife

Domestic Water Unit

JUDO devices belonging to the LongLife Class protect drinking water systems. Dangerous dirt, sand, and rust particles are prevented from entering. Thus, costly damages to pipes, fittings and household appliances are avoided: As a recommendation: SPEEDY at low water pressure, JUKO at high water pressure.

The advantages

- ◆ Money-saving (no cartridges to change)
- ◆ Saves up to 150 EUR of water costs per year in a one-family house (JUKO)
- ◆ Filter cleaning by backwashing
- ◆ Hygiene+ by means of a silver-plated cleaning up unit (3/4" - 1 1/4")
- ◆ Degree of contamination visible
- ◆ Continuous water supply even during cleaning.
- ◆ Backwashing quickly completed, manually or automatically
- ◆ Long-lasting ceramic rinse valve technology
- ◆ Made in Germany

The problem

Sand, rust and dirt particles damage and clog sanitary installations as for example water pipes, fittings, boilers, showers etc., what brings about corrosion, pipe bursts and expensive repairs.

The solution:

JUKO and SPEEDY, LONGLIFE CLASS.

Unique due to the patented ceramic valve technology - a millionfold approved on lever mixers. Particularly convenient: JUKO and SPEEDY LONGLIFE with automatic backwashing - also available as a set of additional components: Moreover the JUKO LONGLIFE reduces - by means of a built-in pressure reducer - your water consumption by up to 15 %.

No house building without JUDO

JUDO has been offering for more than years an all-around protection of the pipe installations, the best possible water quality, energy saving and safety to your entire house. Have checked your domestic installations and update them to an appropriate and economical state.

Rinse water outlet in accordance with DIN 1988 respectively with DIN EN 1717.
